Backgrounder

Healthy Clean was established in June 2007 and has grown more than 400 percent and continues to grow in 2011. Founded by a mother/daughter team, Susan Feindt and Jackie Harmon are familiar with entrepreneurship. Both are real estate brokers and found that when clients sold or bought their homes, finding a dependable cleaning service that offered "green" cleaning services/products was hard to come by. Now owner of their own cleaning service, they often provide cleaning services to their clients, who recently bought or sold a home, as gifts.

"Green" is the driving force behind Healthy Clean's commitment to provide cleaning solutions that are safe for their customers, employees and the planet. Healthy Clean is Green Seal Certified. They use only **Envirox** products, which are environmentally friendly, biodegradable, non-toxic and fragrance free. Envirox uses the cleaning power of hydrogen peroxide (H₂O₂), which is a molecule of water with an extra atom of oxygen attached. Not only is it chemical free, it is more effective than traditional bleach and ammonia based cleaners.

Serving both residential and commercial, customer service is KEY. Healthy Clean services South, Southwest, and Southeast Denver metro areas offering:

- Ongoing cleaning
- Deep, Intensive and Spring Cleaning
- Move-in/Move-out Cleaning
- Post Construction Cleaning
- Carpet and Upholstery Cleaning

Healthy Clean actively supports the non profit organization, Cleaning for Heroes. Healthy Clean is also active in the Highlands Ranch Chamber of Commerce and is a member of the Better Business Bureau.

Healthy Clean is located in Highlands Ranch, Colo. For more information, please visit www.healthycleaninc.com.
